

In the dark about how much insurance you have?

You might already have insurance through your group benefits plan at work, but do you know how much coverage you have? Is it enough?

Manulife Financial has the tools to help shine the light on how much protection may be right for you and the right products to meet your specific needs.

Spotlight on protection

Your group benefits plan is a great base, but a second layer of insurance will help protect you from liabilities and obligations that may put you and your family at risk.

With an individual life insurance policy from Manulife, the death benefit your beneficiary receives can be used to pay off your mortgage and other debts, pay for final expenses or leave money to your loved ones.

Contact me about adding an individual life insurance policy to your plan and help put your future in the spotlight.
